

## Rapid Access List of Resources

## Profile

I am a **Healthcare Professional**, working in the **Emergency Department or Paediatric Ward**

I want to learn about High Flow therapy (with no prior knowledge).

## Time to complete

Fundamentals **0 hrs, 38 min**

Extension **0 hrs, 26 min**

## Fundamentals:

- ### [High Flow Oxygen Therapy](#)

A video that explains the mechanism of action of high flow therapy, the indications & nursing care.

**Video** **20 min**
- ### [Setting up Airvo2](#)

**For Airvo2 Users:** A video that demonstrates how to set up the Airvo2 device.

**Video** **4 min**
- ### [Setting up Optiflow \(OPN\)](#)

**For Optiflow users:** A video that demonstrates how to set up the Optiflow device

**Video** **4 min**
- ### [Setting up Vapotherm](#)

**For Vapotherm users:** A video that demonstrates how to set up the Vapotherm device

**Video** **8 min**
- ### [High Flow Nasal Canula Oxygen Therapy, at a glance](#)

This infographic is a summary of evidence-based use of high flow. A visual 'quick reference' guide covering the basics to support clinicians in practice.

**Infographic** **2 min**

## Extension Learning:

- ### [High Flow Therapy – When and How?](#)

A resource for those who want to know more, includes signposting to further publications.

**Web Blog** **10 min**
- ### [High Flow Therapy – What's the evidence](#)

A resource that critically appraises the evidence for High Flow therapy for bronchiolitis.

**Web Blog** **10 min**
- ### [Canula fitting guide – Fisher & Paykel](#)

A more in depth look at correct selection and fitting for the Fisher & Paykel interface.

**Video** **6 min**
